

I would like to take this opportunity to comment on the proposed expansion of LPFM stations which has the potential to replace existing FM translator services. Specifically, I am concerned about K-Love, broadcasting locally on 90.3). K-Love's programming provides an excellent safe and positive listening atmosphere for both adults and children as compared to some of the other programming available that does not tend to uplift a positive attitude in persons. On the drive home from work, it helps relieve stress rather than to continue to build stress into the evening, and thus allows better attention to be given to safe courteous driving and preparing to spend time with the family that evening. My children, as well as other children, end their day going to sleep with this station on. The programming provided by K-Love has the best interests of the public and our nation in mind. They are there to help many folks who may be struggling with any number of issues. Please protect the status of the existing FM translator services.
